

To

Director / principal

Object of proposal

Dear sir from last seven year we did hard work and develop very good school software with cover all segment of school like account, fee, staff salary, exam, and alerts so we are very glad to deploy this application at your campus.

About My Solution

My Solution is leading software development company. It provides high quality and cost effective software solutions at regional level and committed to take the role of technology to the next level to solve day to day problems. Currently, our main focus is on developing windows based software products and web based applications for Schools, Hotels & Restaurants and Sales/Stock Management Solution.

Why chose myschoolerp ?

1. Just of because we have strong software application that is error less. Error less means some application are under development and company start to sale application that time application have lot of error and you require more support from company so we test this application three year than start sale this very strong point of this myschoolerp.
2. Dedicate support team for our user to provide instant help.
3. We have more then 90 + client from there suggestion we develop new things regularly.
4. Unique things with myschoolerp we use **software support tool** for provide support.
